### FERTILISER MADE TO SPECIFICATION

This blend is produced in Australia using a computer controlled Layco Blender that is able to blend fertilisers accurately without damaging the prills. This product has been made to order based on the specifications required. Please refer to product information sheet for recommended application rate.

**WARNING:** Do not swallow. The dust from this product may act as an irritant. Avoid inhalation and contact with the eyes and skin. This fertiliser contains biuret. This fertiliser is for soil application only. Do not use in foliar sprays.

**WARNING:** This product contains heavy metal impurities. Its use may result in accumulation of cadmium, lead and mercury in the soil. Depending on soil characteristics, irrigation water quality, plant species and variety, crop uptake of cadmium may lead to residue levels in plant and animal products in excess of the maximum level specified by the Australia New Zealand Food Standards Code. In pasture, the offal from grazing animals may also exceed these limits.

**STORAGE AND USE:** Store in a clean, dry place and use only clean, dry spreaders. Wash, brush or blow the fertiliser off paved surfaces following application to avoid discoloration. Do not leave unused product in spreaders.

**NOTICE:** This product is designed only for the particular purposes indicated on the label. Failure to use the product strictly as directed may be illegal, prove dangerous and render the product ineffective. The buyer or user is responsible for any misuse or negligence in the handling, storage, use of or disposal of this material. Globe Growing Solutions will not accept any responsibility whatsoever and howsoever arising and whether for consequential loss or otherwise in connection with the supply and use of this product other than those responsibilities mandatorily imposed by Statutes applicable to the sale and supply of these goods.
