

Andersons Nutri DG Greens Grade 18-1-15

A premium balanced greens grade slow release fertiliser harnessing Andersons patented DG Technology.

Dispersive delivery system ensures nutrients are delivered straight into the soil following irrigation, minimising mower pickup and optimising plant response.

Balanced N:K formulation with true slow release nitrogen, ideal for regular maintenance applications.

Pack size 20kg

Guaranteed Minimum Analysis	
TOTAL NITROGEN (N)	18%
- as ammonium	1.3%
- as methylene ureas	14.2%
- as urea	2.5%
TOTAL PHOSPHORUS (P)	1.3% as ammonium
TOTAL POTASSIUM (K)	14.9% as sulphate
TOTAL SULPHUR (S)	6.9% as sulphate

Benefits of Greens Grade 18-1-15

Comes in greens grade prills of 75 SGN and readily disperses when contacted by water forming many individual particles restoring nutrients to the soil.

The small prill size allows this product to be safely spread over greens without causing surface disruption, when watered each small prill breaks down into even smaller granules resulting in faster distribution into the soil profile and less potential for mower pickup. Advanced dispersing granule technology ensures maximum coverage and performance.

For use on greens, tees, and other closely mowed turf. 93% of nitrogen is derived from MUtech™ methylene urea for extended feeding. For use in warm weather conditions.

Directions for use

Apply product to actively growing turf at 1.5 - 3.0 kg/100 m².

Use lower rates for cool season turf.

Use higher rates for warm season turf. Apply to dry foliage.

Water in after application with 3-4 mm of irrigation.

If temperatures exceed 30° C or if application to damp or wet turf is unavoidable, irrigate immediately after application.
