Application Rate Table				
Situation	Weed	State	Rate	Comments
Turf couch: Golf greens, parks, lawns and tennis courts	Paspalum, summer grass, mullumbimby couch, sedges, crab grass, nut grass	All states except WA	250-660mL in 4.5-20L of water per 100m ²	Area to be treated should be watered the previous day to ensure the soil is moist. Use the finest spray possible. Some injury may occur if applied when air temperatures exceed 30°C. Use of the lower rates will reduce discolouration but will require repeat applications at 7 days and 14 days later. Repeat spray program as necessary.
		WA only	250mL in 4.5-20L of water per 100m ²	
Bowling greens		All states except WA	10L in 300L of water per standard green	
		WA only	3.8L in 300L of water per standard green	
Turf bent or fescue: Golf greens, parks, lawns and tennis courts		All states	250-410mL in 4.5-20L of water per 100m ²	
		Bowling greens	All states	
Buffalo grass: Golf greens, parks, lawns and tennis courts	WA only	250mL in 4.5-20L of water per 100m ²
