

Dolomite WDG

Greens Grade for Fairways

globe
GROWING SOLUTIONS

Guaranteed Minimum Analysis

TOTAL CALCIUM (Ca)	21%
TOTAL MAGNESIUM (Mg)	12%

Pack size 20kg bags

This is a high quality prilled granule that disperses when contacted by water forming very smaller granules that will persist in the soil releasing nutrient over time.

- Restores calcium and magnesium for improved soil balance.
- Helps increase or stabilise pH allowing for improved nutrient availability, microbial activity, soil structure and overall turf vigour.

Best used where an increase in pH is desired and calcium and magnesium levels require boosting.

Key benefits of Dolomite WDG Fairway Grade

- Small sized granules break up readily into very fine particles within the first few irrigation events following an application.
- Reduced mower pick-up following application, ensuring maximum efficiency.
- Improved movement and coverage of the amendment into the soil profile.
- Improved application timing.
- Small and uniform granule size

Directions for use

Use at a rate of between 2 to 10 kg per 100m² (200 to 1000kg per ha) or as indicated by soil testing.
