GROWING SOLUTIONS

Parkmix is an ideal blend to suit most applications. Quick germinating ryegrass along with the fine textured creeping red fescue provides excellent cool season growth whilst the addition of couch provides summer hardiness.

The fast germinating ryegrass provides early cover and colour and provides some protection for the slower germinating fescue and couch. The creeping red fescue is a fine leafed variety that will grow well through the cooler winter months whilst the couch variety included will stand up well to summer heat and provide some drought hardiness.

Establishment & Maintenance

Apply at rates between 3-5kg per 100m²

Pack size 25 kg
