## **GENERAL INSTRUCTIONS**

Wetter Pro Surfactant & Penetrant is a highly penetrating surfactant suitable for use with glyphosate herbicides, certain brush control herbicides, fungicides, insecticides, miticides and foliar micro-nutrients.

It improves the efficiency by enhancing the penetration and uptake into certain hard to control woody weeds such as bracken, gorse and perennial ryegrass.

Wetter Pro Surfactant & Penetrant is not a general purpose surfactant and should only be used where addition of a silicone surfactant is recommended.

## **MIXING**

Add Wetter Pro Surfactant & Penetrant to spray tank after the agricultural chemical is thoroughly mixed.

## **PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT**

DO NOT contaminate streams, waterways or rivers with the chemical or the used containers.

## **STORAGE AND DISPOSAL**

KEEP OUT OF REACH OF CHILDREN. Store in the closed, original container in a cool, well-ventilated area. DO NOT store for prolonged periods in direct sunlight. Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank or knapsack mix. DO NOT dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and deliver empty packaging for appropriate disposal to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulations. DO NOT burn empty containers or product.
